

**FCC FORM 2100, SCHEDULE 303-S
KFSN TELEVISION, LLC (KFSN-TV)
SECTION III**

Online Public Inspection File.

Review of materials for the last two years in the political file demonstrates that the vast majority of orders were uploaded in a substantially timely way. For the 237 political orders the station received in that period, often including multiple revisions per order, there were 504 total uploads to the political file. The station is aware of 38 instances where a file was uploaded after the passage of more than three business days. The station is aware of 2 cases in which the files were uploaded after the passage of four or five business days, and 36 instances in which files were uploaded (or in most instances fully uploaded after an earlier, timely, but incomplete upload) after the passage of more than five business days. Relevant personnel have been reminded as to the importance of close adherence to the Commission's rules and policies regarding timely filing of materials in the political file, and internal measures have been refined and reinforced to ensure that such materials are posted as quickly as possible.
