

Notification of Resumption of Operations

The instant notification is being filed to notify the Commission that Television Station WMOR-TV, Lakeland, Florida (Fac. ID No. 53819), resumed normal operations as of March 9, 2022. The reduced power STA in LMS File No. [0000184731](#) is no longer necessary. Please note, the date of resumption being used in the electronic notification is July 25, 2022. The form will not allow the use of a date more than 45 days from the actual resumption.¹

* * * * *

¹ We acknowledge that there was a lapse in the timely notification of the resumption of normal operations, and we respectfully request a waiver of any applicable notification deadline to the extent deemed necessary. In this case, the lapse related to the restoration of full power operations consistent with the station's license; as such, the only public interest that went unserved was the accuracy of the Commission's records, and it endured for only a brief period of time. The licensee recognizes the importance of the accuracy of the Commission's records, and posits that in this particular situation the oversight had a de minimis effect on any stakeholder.
