ENGINEERING REPORT

KWIE, Hinkley, CA 267A Minor Modification Re-filing

This is a simple re-filing of the expired CP – BPH-20190701AAZ. The past CP exhibits, included as an attachment to this re-filing, are still valid. In fact, nothing critical has changed (there are no Section 73.207 changes that would impact the results) since the expired CP July 1, 2019 filing.

Also, the applicant has not had any ownership changes since July 1, 2019. Therefore, the multiple ownership status as of July 1, 2019 is still valid today.

It is noted that the expired CP changed the community of license to Hinkley, CA. Therefore, this re-filing is not classified as a community of license change.
