

Displacement

KWKD-LD, Wichita, KS is licensed to operate on channel 28. KSCW, Wichita, KS, channel 12, applied for and was granted a rule making to move to channel 28. We have contacted KSCW and they told us they will not move to channel 28 before the end of the year. But we wanted to go ahead and displace to channel 36 ahead of time.

As a temporary measure, we are going to apply for an STA to operate on channel 28 at our old analog channel 28 downtown location so we can construct the channel 36 facility without a disruption of service.
