License Modification to Replace Broadcast Antenna

W216BT FCC File No.: BLFT-20020607AAG utilizes a Kathrein KUSA GP-FM non-directional ground plane vertically polarized antenna which has deteriorated over the years. The applicant sought to replace the antenna with an identical make and model however the KUSA GP-FM has been discontinued. The suitable replacement is a Kathrein FMVMP-1 which is a single bay vertically polarized non-directional antenna. No other changes to the license are proposed.
