Online Public Inspection File Certification

Imagicom Spokane, LLC (“Imagicom”), licensee of KAYU-TV, Spokane, Washington, hereby certifies that except as described herein, KAYU-TV has timely placed in its online public inspection file all documents required to be placed in the file by 47 C.F.R. § 73.3526 and otherwise has complied with the Commission’s public inspection file requirements in all material respects.

Imagicom notes that the station changed ownership during the current license renewal term. Specifically, on August 1, 2022, the license for KAYU-TV was assigned to the station’s current owner pursuant to a long form assignment application. *See* FCC File No. 0000189171. Imagicom notes that because of the long-form ownership change, the current owners are not liable for the violations of the prior owners. However, out of an abundance of caution, Imagicom discloses that the prior owners failed to timely upload a few items to the station’s FCC online public file: the 2018, 2019 and 2020 Annual EEO Public File Reports.

Imagicom requires its stations to comply with all FCC rules, including the rules for the political public file. Imagicom employees are trained on FCC political public file compliance before and throughout each election cycle and are provided with tools and checklists to assist with maintaining complete and timely records. While KAYU-TV has complied with the political public file requirements, prior to Imagicom’s ownership of the station, some documents may have been uploaded to the political public file outside of the Commission’s policy that all documents be uploaded within one business day. Imagicom has counseled the station on FCC political public file requirements and emphasized that all required materials must be uploaded within one business day going forward.
