

**FCC Form 2100, Schedule 303-S  
KWSU-TV, Pullman, WA (Facility ID: 71024)**

**Online Public Inspection File**

Washington State University (“WSU”), licensee of noncommercial educational television station KWSU-TV, Pullman, Washington, reports the following with regard to the timely placement of three (3) annual EEO public file reports in the station’s public inspection file during the current license term. The KWSU-TV online public inspection file is complete with all required items, but the following EEO public file reports were uploaded late: 2014-2015 (uploaded 1 day late), 2017-2018 (uploaded just under one year late), and 2020-2021 (uploaded about four and a half months late). These late uploads were due to staff oversights which WSU corrected as soon as it became aware. WSU regrets the delay in the upload of these items but submits that the station’s online public file is now complete and WSU has been substantially compliant throughout the license term.
