

Engineering Special Temporary Authority Request

HC2 Station Group, Inc. ("Licensee") respectfully requests an Engineering Special Temporary Authority (STA) pursuant to the technical specifications listed in the application while it facilitates the repair of its Low Power television station ("Station").

The Station's transmitter's ERP has been reduced to 7.11kW as the Licensee is in the process of replacing an internal chip within one of the power amplifiers. Once the replacement internal chip is received and installed, the station will be able to resume licensed operations.

Grant of Licensee's Engineering STA promotes the public interest as it will allow the station to continue to provide free over-the-air programming to the community and the surrounding area.
