WYCE(FM) Agreement for Transfer of Control

Grand Rapids Cable Access Center ("GRCAC"), the licensee of WYCE(FM), is filing this long form transfer of control application to report a change in the composition of its Board of Directors. For this reason, there is no agreement or similar transactional document. GRCAC is filing a long form application because its records do not reflect the dates each board member joined and left the board since 2016.

The Board of Directors of GRCAC currently consists of fourteen (14) voting members. Each member is a United States citizen and has an equal vote (*i.e., 7.1 % of the aggregate votes.*)

Starla McDermott is GRCAC's new Executive Director.

It should be noted that the licensee's philosophy has not shifted. The changes presented in this application are the product of the regular election and replacement of board members over time. Until recently, the licensee did not realize that the filing of a transfer of control application was appropriate once a majority of the board changed.
