

Renewal of License – Adherence to Minimum Operating Schedule Narrative

HC2 acquired the license for KTVP-LD, Facility ID: 60465, Phoenix, AZ on 12/26/2017 pursuant to an assignment application.

The Assignor was: Mako Communications, LLC. The Lead File Number was: BALDTL-20170918ACA and the Member File Number was: BALDTL-20170918ACR.

Accordingly, the certifications contained in this narrative cover the period from 12/26/2017 to the present.

The station went silent 10/26/2018 and filed a Silent Special Temporary Authority (“Silent STA”) request, FCC File Number: 0000063119. The specific reason for the period of silence was, “The specific reason for the period of silence was the station was displaced during the Special Displacement Window. HC2 requested a Silent STA to avoid the inefficiency and waste associated with building a second, duplicative broadcast facility that could only be used for a short period of time given the displaced status of the station. Specifically, the station was displaced as part of the repacking process and would have needed to build a separate facility to operate on a new channel.¹ Thus, if required to resume transmission prior to the STA’s expiration date, DTV America would have been forced to build a first facility to operate on the station’s current channel and then, soon after, a second facility to operate on the station’s new channel.” The station was diligently building a facility pursuant to the technical specifications outlined in the granted Displacement Construction Permit, FCC File Number: 0000051795. The Silent STA was granted on 10/27/2018.

The station extended the Silent STA when it filed a Silent STA Extension, FCC File Number: 0000072142 on 4/24/2019. The specific reason was the station was in the midst of completing its displaced station and the, “transmitter, filter, Internet, and electricity [were] installed and its combiner [was] on-site.”

The station resumed operations on 6/26/2019 when it filed a License to Cover, FCC File Number: 0000075039. The License to Cover was granted on 7/12/2019. Since that date, the station has been operating pursuant to its authorized specifications.
