Operations Certification

K33LW-D was acquired by the current licensee on December 17, 2019. The current licensee has reviewed the station's records and the applications in the FCC's LMS system and notes that the former licensee ceased operations of the station once during the renewal term due to issues related to equipment failure.

A request for Silent STA was filed on April 12, 2017 (FCC File Number 0000024366) due to equipment failure. After resolving the technical problems, the former licensee recommenced operations on May 25, 2017 (FCC File Number 0000024648).
