

Section 73.1030 Compliance

In accordance with Section 73.1030(a)(2) of the FCC Rules, prior to, or simultaneously with, the filing of the instant application, electronic notification shall be sent to the Interference Office at the Arecibo Observatory of the technical parameters of the proposal. Further, the attached map demonstrates compliance with the field strength limit set forth in Section 73.1030(c) with respect to the proposal's impact on the FCC monitoring station at Santa Isabel, PR.

The proposal's predicted field strength at the FCC monitoring station is well below 10 mV/m.
