

**FM Station KCND • 90.5 MHz, Channel 213C1 • Bismarck, North Dakota**

**Environmental Exhibit to FCC Form 2100**

An environmental assessment is not required, as grant of this request would not be considered a major environmental action. The maximum calculated power density at 2 meters above ground was found to be less than 5% of the applicable public exposure limit (0.2 mW/cm<sup>2</sup>). The proposed operation is therefore categorically excluded under Section 1.1307(b)(5)(i) of the FCC Rules from having to consider the contributions of other stations at the site. None of the other factors specified in Section 1.1307 of the Rules are believed to apply.
