

### **Primary Station**

As stated in the Comprehensive Technical Statement included in the application for construction permit, W277BI proposed to be operated commercially, with WTOD (FM) HD-2 as the primary station.

The license application approved operation with WTOD (FM) HD-2 as the Primary Station. While the station temporarily operated with WPAY as its Primary Station pending installation of certain equipment, it will now operate with its authorized and licensed Primary Station being WTOD (FM) HD-2.
