

DUOPOLY EXHIBIT WIBT(FM) – INVERNESS, MS

This exhibit is submitted in support of the application of Delta Radio Network, LLC, to modify the facilities of WIBT(FM) Greenville, Mississippi to increase to a Class C2 facility, relocate the transmitter site, and change the city of license to Inverness, Mississippi. As proposed, the principal community contour (70 dBu) of WIBT(FM) will overlap the contours of commonly-owned WDTL(FM) Indianola, MS; WIQQ(FM) Leland, MS; and WMYQ(FM) Moorhead, MS. (WMYQ is owned by Contemporary Communications LLC, a company affiliated with Delta Radio Network LLC)

In this case, no more than three of the subject stations overlap one another. As such, common ownership of the stations is permissible pursuant to Section 73.3555(a)(1)(iv) of the Commission's Rules, which specifies:

“In a radio market with 14 or fewer commercial radio stations, a party may own, operate, or control up to 5 commercial radio stations, not more than 3 of which are in the same service (AM or FM), except that a party may not own, operate, or control more than 50% of the stations in such market”.

The stations are already commonly-owned and WIBT(FM) already overlaps WIQQ(FM) and WDTL(FM). Although the proposed modification will also result in WDTL overlapping WMYQ, this is clearly permissible in that no more than three of the subject stations will have overlapping principal community contours at any given point.

A map depicting the principal community contours of each station is attached.

TECHNICAL EXHIBIT

Map depicting existing 70 dBu contours of WIQQ(FM) Leland, MS and WMYQ(FM) Moorhead, MS; plus WDTL(FM) Indianola, MS (authorized contour per construction permit); and proposed contour of WIBT(FM) Inverness, MS. At no point is there common overlap of more than three stations.
