Identification of Core Programming with E/I Symbol

Applicant identifies Core Programming aired on the station using the E/I symbol throughout the airing of each program. As Applicant disclosed in the station's First Quarter 2017 Children's Television Programming Report, due to a technical issue, certain Charge! network programs that were intended to air as Core Programming aired without the E/I symbol in March 2017. The issue was promptly corrected by the network and these episodes were made good in April 2017.
