Request for Change in Input Signal for FM Translator
W284CS, 104.7 MHz, CH 284, FAC ID 158312

Dear Ms. Dortch:

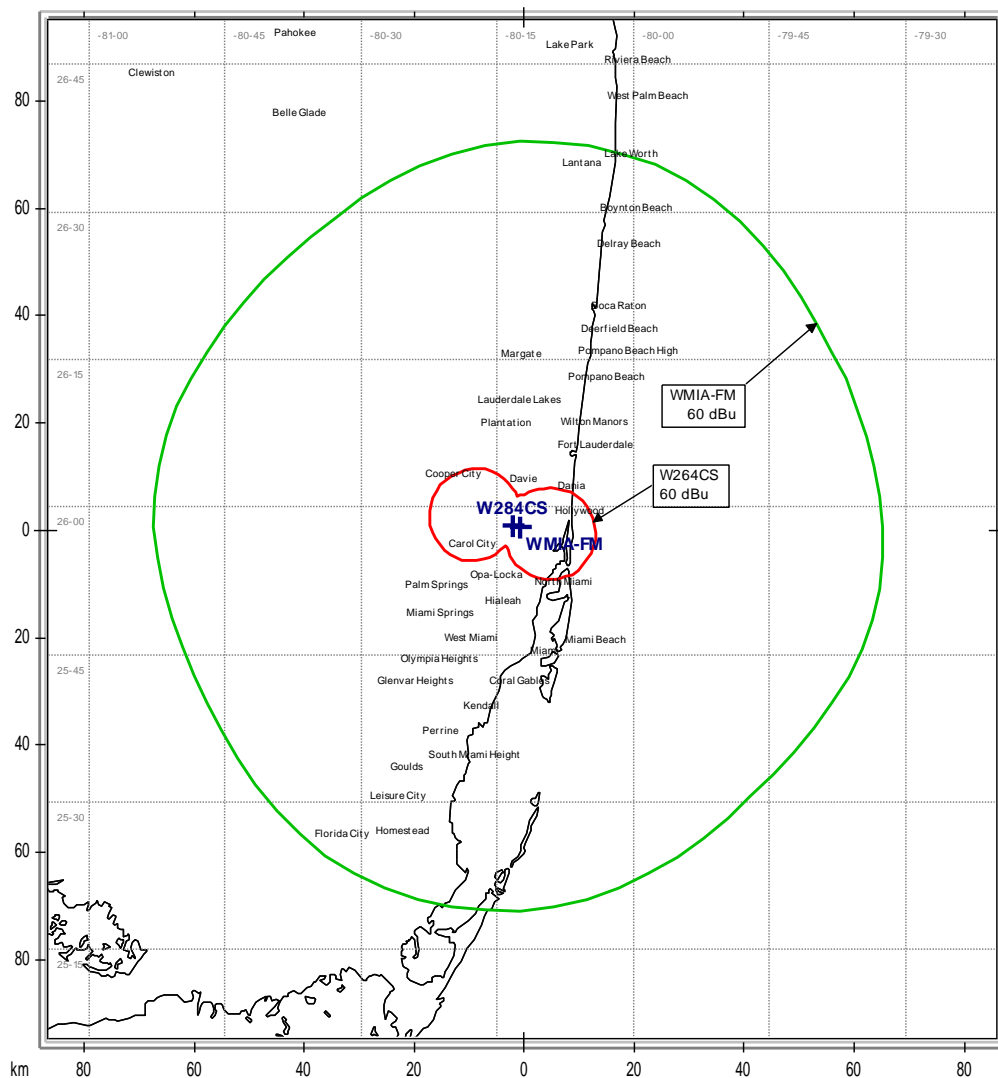

On behalf of IHM LICENSES, LLC, the licensee of FM Translator W284CS, we hereby notify the Commission of a change to the input signal for the above co-owned licensed translator. As of 12/02/2022, the new input signal will originate from **WMIA-FM HD-3** (Facility ID 51978). The translator is a fill-in of the station, and the delivery method is via the internet. The primary station is not an AM station, and therefore was not part of AMR 2017- 2018 windows. Below is a contour exhibit showing the protected contours of the primary and translator signals. We would appreciate if the Commission, at this time, would update the file on this translator.

Please direct any communications regarding this request to the undersigned.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Troy G. Langham".
