STATEMENT AS TO PUBLIC INSPECTION FILE RULE COMPLIANCE

The applicant wishes to amend its statement to the Commission that it was not as diligent as required in the process of uploading and maintaining a portion of its online public inspection file during the renewal period.

In its renewal application, the applicant reported that the failure to upload timely matter involved the Q4 of 2018 Issues/Programs list.

The applicant has subsequently learned that there was a government shutdown at the time when uploading was to be undertaken for the Issues/Programs reports for Q4 of 2018. Consequently, the applicant submits that owing to the government shutdown, its uploading had to be delayed and the reason for the delay was far beyond its control and it should not be determined to have failed to copy with the uploading timely rules for that report.
