

### **Multiple Ownership Study**

Station KBCY(FM), Tye, Texas is part of the Abilene, TX BIA Metro market. In this Metro, there are 26 stations. See attached BIA Report.

According to the FCC's ownership tiers, in a metro having 15 to 29 stations, a licensee may own up to 6 full power stations with not more than 4 of the same service.

This application complies with that limit because Cumulus Licensing LLC or its principals own 4 FM stations.

In addition, there are no other stations attributable to Cumulus Licensing LLC or its principals that overlap any of these 4 stations. Thus, a contour overlap study is not required.
