Good morning,

My apologies for the late response; I've been largely out of the office since 11/28 and will continue to be for the foreseeable future.

Doing a little catch-up work today, this application (0000168079) fails TVStudy. Specifically, it causes 1.04% interference to full-power station WHPX.

You have 30 days to resolve this issue or the applications will be dismissed.
