

W276BV CHANGE OF PRIMARY STATION

- 1. W276BV is licensed and silent. Change will be implemented upon resumption.**
- 2. Change applies only to W276BV.**
- 3. Translator service contour is outside the service contour of proposed primary.**
- 4. Translator is therefore a non-fill-in, and with less than 10 Watts ERP.**
- 5. Primary station analog signal will be received over the air using a directional receive antenna.**
