

Proposal for NEW KJJJ Auxiliary CP

This application is a proposal for a new Auxiliary Facility for KJJJ to be used for emergency purposes only when the main facility is off the air for maintenance, repair or replacement of its transmit antenna. The proposed facility is the licensed location of KJJJ-FM1, Lake Havasu, AZ FAC# 178460 as authorized by license 0000181208. The 60 dB μ F(50,50) contour of the proposed auxiliary is entirely within the 60 dB μ F(50,50) contour of KJJJ as demonstrated in the attached contour map. The proposed facility complies with the Rf hazard requirements as demonstrated in the attached exhibit.
