By the Chief, Video Division, Media Bureau:

I. INTRODUCTION

1. The Video Division, Media Bureau has before it a petition for rulemaking filed by RNN Boston License Co., LLC (Petitioner or RNN), the licensee of WWDP (WWDP or Station), channel 10, Norwell, Massachusetts.¹ The Petitioner requests the substitution of channel 36 for channel 10 at Norwell, Massachusetts in the Table of TV Allotments.²

II. BACKGROUND

2. In support of its channel substitution request, the Petitioner states that the Commission has recognized that VHF channels have certain characteristics that pose challenges for their use in providing digital television service, including propagation characteristics that allow undesired signals and noise to be receivable at relatively far distances.³ According to the Petitioner, it has received many complaints from viewers unable to receive a reliable signal on channel 10.⁴ While an analysis using the Commission's TVStudy software indicates that WWDP's proposed channel substitution is predicted to create areas where viewers may lose service, all viewers in the loss area will continue to be served by at least five other full power television stations and no viewers will lose service from one of the four major television networks.⁵

¹ Petition of RNN Boston License Co., LLC for Rulemaking (LMS File No. 0000193261, filed June 13, 2022) (Petition). The Petitioner amended on October 13, 2022 (Updated Engineering Statement) to show that the service loss area created by the proposed change from channel 10 to channel 36 is covered by service from five or more full power television stations.

² 47 CFR § 73.622(j).

³ Petition at 1-2, citing *Innovation in the Broadcast Television Bands: Allocations, Channel Sharing and Improvements to VHF*, ET Docket No. 10-235, Notice of Proposed Rulemaking, 25 FCC Rcd 16498, 16511, para. 42 (2010).

⁴ Petition at 2. WWDP's channel sharing partner, WMFP(TV), Foxborough, Massachusetts, which is also owned by RNN, has similarly received complaints and would benefit from the proposed channel change. Petition at 1 and 2.

⁵ Petition at 3-4, Engineering Statement, and Updated Engineering Statement. As the Petitioner points out, the Commission is "generally most concerned where there is a loss of an area's only network or NCE TV service, or where the loss results in an area becoming less that well-served, i.e., served by fewer than five full-power stations." *Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television*, MB Docket No. 07-91, Notice of Proposed Rulemaking, 22 FCC Rcd 9478, 9493, para. 38 (2007). Petition at n.6.

III. DISCUSSION

3. We believe that the Petitioner's channel substitution proposal warrants consideration. Channel 36 can be substituted for channel 10 at Norwell, Massachusetts, as proposed, in compliance with the principal community coverage requirements of section 73.625(a) of the Commission's rules (rules),⁶ at coordinates 42° 18' 37.0" N and 71° 14' 12.0" W. We believe any possible harm resulting from the loss of service to some viewers is outweighed by the overall benefit of improving reception to the Station's viewers, including the Station's community of license. Furthermore, the viewers in the loss area are already well-served by five or more stations and no viewers will lose service from one of the four major networks or any NCE.⁷ In addition, we find that this channel change meets the technical requirements set forth in sections 73.616 and 73.623 of the rules.⁸ Thus, we propose to substitute channel 36 for channel 10 for WWDP with the following specifications:

<u>City and State</u>	<u>Channel</u>	<u>Power (kW)</u>	<u>Antenna HAAT (m)</u>
Norwell, Massachusetts	36	1000	318.4

4. Accordingly, we seek comment on the proposed amendment of the Table of Allotments, section 73.622(j) of the rules,⁹ for the community listed below, to read as follows:

<u>Channel No.</u>		
<u>City and State</u>	<u>Present</u>	<u>Proposed</u>
Norwell, Massachusetts	10	36

IV. PROCEDURAL MATTERS

5. *Showings Required.* Comments are invited on the proposal discussed in this Notice of Proposed Rulemaking (NPRM). The Petitioner or any proponent that expresses interest in the allotment will be expected to answer whatever questions are presented in initial comments. The petitioner of a proposed allotment is required to file comments even if it only resubmits or incorporates by reference its former pleadings. The petitioner must restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly.¹⁰ Failure to file may lead to denial of the request. Any requests by a proponent for withdrawal or dismissal of an allotment request must be filed with the Commission in accordance with section 1.420(j) of the rules.¹¹

6. *Cut-off Protection.* The following procedures will govern the consideration of the filings in this proceeding:

- (a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments.¹²

⁶ 47 CFR § 73.625(a). The proposed channel 36 facility would also put a principal community signal over Foxborough, the community of license of WMFP(TV), WWDP's channel sharing partner. Engineering Statement, Appendix B.

Any paper filing that is not addressed to the Office of the Secretary will be treated as filed on the day it is received in the Office of the Secretary.  - During the time the Commission's building is closed to the general public and until further notice, if more than one docket or rulemaking number appears in the caption of a proceeding, paper filers need not submit two additional copies for each additional docket or rulemaking number; an original and one copy are sufficient.
