

**STATEMENT AS TO PUBLIC INSPECTION FILE RULE COMPLIANCE**

The applicant wishes to advise the Commission that it has, in preparing its renewal application, determined it has not been as diligent as required in the process of uploading and maintaining a portion of its online public inspection file during the renewal period.

In connection therewith, the applicant has determined that minor errors occurred in the timely uploading of political advertising agreements.

The applicant has determined that a few political advertising orders was delayed in their uploading. During the 2020 election cycle, one federal candidate's political advertising agreements was late uploaded by seven days and an issues advertisement agreement was late uploaded by 16 days.. A limited number of late uploadings has been recognized by the Commission as a *de minimis* violation of the political broadcasting rules.

The Commission has recognized that, in this round of license renewals, the Commission's interest is in having online public inspection files be accurate as of the license renewal date. To that end, the Commission has announced that it is only where public inspection file compliance is not effectuated by the "deadline for filing a station's renewal application" will that failure result in any impact or adverse action involving the renewal application. *Public Notice*, 34 FCC Rcd 1344 (MB 2019). The applicant submits that this is an appropriate policy that should be applicable to the applicant in this instance.
