Notifications

For two of the ten preemptions for *All in with Laila Ali* during 2022, technical issues prevented the notification to viewers of the rescheduled information from airing. For the April 9 preemption multiple attempts were made to air the notification, but the technical issue could not be resolved at that time. For the October 1 preemption technical issues locked the operator out of the system. Both issues were investigated and resolved with procedures put in place to prevent recurrence of these issues.
