

## KQNV, 89.9, FALLON, NV REASON FOR SILENCE EXTENSION

KQNV, Fallon was forced to go silent when its internet feed and audio codec failed, likely caused by a storm. The feed is being repaired and a new codec is being ordered to replace the failed unit. Because of shortages of broadcast equipment, a 90 to 120 day period of silence is requested.

During the fourth quarter of 2022 KQNV had its lease for the STA site canceled. This site was located on property owned by Kevin Fitzgerald's local Nevada attorney (Fitzgerald is president of Lucky Boy). This attorney passed away and his estate decided to sell the STA property. As such, the KQNV antenna tower was removed in December 2022/January 2023. A different site has already been identified and when weather conditions improve in March of 2023 construction of a new KQNV STA antenna tower will commence. A new engineering STA will be filed soon. A silent STA until May 3, 2023 is requested.
