

**Technical Statement**  
**Translator W280EC**  
Channel 280D – 103.9 MHz  
0.038W ERP (DA) – 176.7 m COR AMSL  
Concord, New Hampshire  
February 2023

In this instant application, New Hampshire Family Radio, LLC seeks to relocate Translator W280EC to ASR 1034646. It will continue to be a fill-in translator for WKXL (AM) Concord, NH.

There is overlap between the 60 dBu contours of the proposed and licensed facilities, making this a minor change. See the attached Minor Change Demonstration map. The GLOBE 30 Second Terrain Database was used throughout the application.
