

## **EXPEDITED SPECIAL TEMPORARY AUTHORITY EXHIBIT**

New Hampshire Family Radio, LLC (“Licensee”), licensee of W280EC (Fac. ID No. 145612), Concord, New Hampshire (the “Station”), respectfully requests expedited treatment of the instant Special Temporary Authority (“STA”) application. This STA requests authority to operate in accordance with the parameters set forth in the Station’s Minor Modification Application submitted prior to this STA until such modification application is granted, built-out, and licensed. *See* FCC File No. 0000211525 (“Minor Mod”). Licensee estimates that it will require one to two months to build out and begin operating from these parameters pursuant to the STA, once granted.

The Station recently requested and was granted authority to remain silent until August 1, 2023, due to a storm that blew down the tower from which the Station operates. *See* FCC File No. 0000207477. Since obtaining authority to remain silent, the Station has assessed its options to move forward, and now wishes to relocate the Station in accordance with the Minor Mod. With this STA, the Station requests that the FCC expeditiously grant Licensee authority to relocate the Station and operate in accordance with the parameters specified in the Minor Mod until the Minor Mod is granted, built-out, and licensed so that it may quickly resume operations.
