

### **Multiple Ownership**

The proposed transaction will not create any new combination. The compliance of the existing combination was demonstrated in BALH - 20090107AGT and was reaffirmed in FCC file number BTCH-20161017AAN. Since the 2009 showing, only one station included in the market study has modified its facilities. That station, KIIC(FM), Albia, IA, moved further into the contour-defined market (see BLH-20120103ABP). Thus, the instant combination of two FM's and one AM station continues to comply with Section 73.3555(a) of the Commission's Rules
