

WPCB, Greensburg PA (Fac. Id. 13924)
License Renewal Application
OPIF Explanation

In reviewing its online public file in preparation for renewal, WBCP noted only two instances where uploaded documents reflect a date after the upload deadline. First, the Q1 2016 issues/programs list due April 10, 2016 has an upload date of May 17, 2016. It is believed that an initial upload attempt was timely made, but failed and was only discovered later. Second, the 2018-19 EEO public file report was uploaded on March 26, 2020 at the same time as the 2019-20 report. Here too, WPCB believes that a timely upload attempt was made for the 2018-19 report during March of 2019, but failed and was not discovered until later. WPCB has confirmed that the 2018-19 EEO public file report was in fact timely posted to and available to the public on the station's website during the entire time period that the report did not appear in the public file.
