REQUEST FOR EXTENSION OF SPECIAL TEMPORARY AUTHORITY

In May 2018 a sailboat mast knocked out the power line supplying power to the uninhabited island in Marathon (Boot Key Harbor), where WFFG's tower and transmitter are located. As a result, licensee has had to use a portable generator to operate the station. Operation in this manner requires personnel to travel by boat to the island periodically to transport fuel and to refill the fuel tank the generator uses. The licensee is unable to sustain the economic burden of operation in this manner, and accordingly, suspended operation on June 1, 2022. Authority to remain silent was granted September 9, 2022, and because the condition persists, an extension is now respectfully requested.
