

**WLHY-LD, Lebanon/Harrisburg/York/Lancaster, PA (Fac. Id. 187456)**  
**Renewal Application**  
**EEO Response Explanation**

WLHY-LD is a low power television station with fewer than five full-time employees, and therefore it is not required to prepare or post an EEO public file report. The “yes” response to the EEO certification therefore applies to the first part of the certification regarding filing an EEO program report with the license renewal application, but not the second part concerning public file reports and website posting.
