

Purpose of Amendment

The purpose of this amendment is to change the primary station being rebroadcast to WTMT-FM, Channel 290C2, Facility ID No. 72070, Weaverville, NC. An exhibit is attached demonstrating that WTMT-FM complies as the fill-in translator primary station for both the licensed W264DT site and the W221ET construction permit.

Once the facilities authorized by the construction permit are completed, Radio Training Network intends to change the primary station to WLFA-FM and will notify the FCC.
