

Reason for STA EXTENSION ***

W300DG went off the air on September 29, 2022 because Licensee lost access to the W300DG tower. Licensee still does not have access to the site from which W300DG previously operated, and Licensee has not yet located a new site. W300DG must remain silent until Licensee is able to make arrangements to operate from a new site. Accordingly, Licensee hereby respectfully requests an extension of this Special Temporary Authority to remain silent.

*** This is a request to extend a prior Silent STA (LMS File No. 0000201679).
