

At the time of the Application for Construction Permit radio station KGKL (Facility ID: 34464) has a Construction Permit (BP-20191122AAX) to abandon nighttime directional operation (DA-N) and operate instead as non-directional full-time (ND). A form 302, License to Cover application, has been accepted for filing (BL-20230208AAB) by the FCC to cover this Construction Permit. Therefore, the Special Operating Condition requiring the licensee to perform a partial Proof of Performance on the KGKL directional array is no longer necessary.
