

Online Public Inspection File

The requisite materials were timely provided in the KHON-TV online public inspection file with the following exception:

- 3Q 2019 Commercial Limits Certification
- In addition to what was previously disclosed, the Station notes it makes every effort to upload the relevant political file material to its online file as soon as possible as noted under the rules and regulations of the FCC. In a further review of its political file, however, the station determined there might have been a small number of orders not uploaded as promptly as possible. The station will continue to train its staff to ensure that all material is uploaded promptly going forward.
