

## Request for Extension of Reduced Power STA

William J. Jaeger ("Jaeger"), the licensee of low power television station KOTR-LD, Monterey, California (Facility ID No. 187515), respectfully requests an extension of its special temporary authority to operate the station at reduced power with the facilities specified in FCC File No. 0000168721. On November 2, 2022, the FCC granted an extension of KOTR-LD's special temporary authority to operate at reduced power from the site specified in the station's outstanding construction permit ("CP") (File No. 0000122307), with such authority expiring May 1, 2023. Jaeger is currently investigating options for using a panel antenna to modify the station's authorized coverage pattern, and is coordinating with the station's tower owner regarding the proposed antenna's weight, load capacity, and antenna placement. Jaeger is also awaiting a vendor quote for a new transmitter system. Accordingly, Jaeger respectfully requests continued special temporary authority to operate KOTR-LD at reduced power while it works to complete the facilities specified in the CP.
