Mark,

Attached is a copy of the results of the interference study for K47HT-K14GG-D referenced in your email. The license application has been amended.

Thanks
Don

Good morning,

We are in receipt of application 0000184621 (K47HT/K14QQ-D), and found that it is lacking a channel 14 interference analysis as required by the special condition on the permit. Please amend your application to attach your analysis, and e-mail it to myself and Kevin Harding. Once we have it and we grant Program Test Authority, you may begin to operate K14QQ-D.

Thank you.
