

Renewal of License – Adherence to Minimum Operating Schedule Narrative

HC2 acquired the license for WVTT-CD, Facility ID: 10869, Olean, NY pursuant to an assignment application.

The Assignor was: Woodland Communications, LLC. The Lead File Number was: BAL-20180820ABT. The acquisition was consummated on 10/1/2018. Accordingly, the certifications contained in this narrative cover the period from 10/1/2018 to the present.

The station went silent on 3/13/2020 and filed a Silent Special Temporary Authority (STA) request, FCC File Number: 0000107873. The specific reason for the period of silence was the station was in the process of building the Phase 8 Repack Construction Permit, FCC File Number: 0000105589. The narrative statement read, “Unique circumstances support this request. Licensee is operating in a resource-constrained environment due to the ongoing 600 MHz Incentive Auction repacking process. Station owners seeking to build new broadcast facilities currently have access to far fewer resources than they would have otherwise, a factor that the FCC and its bureaus acknowledged could become an issue when designing the repacking process to facilitate this “once-in-lifetime opportunity to expand the benefits of mobile wireless coverage.”¹ The Silent STA was granted on 4/1/2020. The station resumed operations on 7/7/2020 and filed an Engineering STA, FCC File Number: 0000117684 on 7/13/2020 outlining the resumption of operations technical specifications. Accordingly, a Resumption of Operations, FCC File Number: 0000117935 stating a date of 7/7/2020 for resumption of operations was filed on 7/16/2020. A License to Cover, FCC File Number: 0000129942 was filed on 12/22/2020. The License to Cover was granted on 12/29/2020. Since that date, the station has been operating pursuant to its authorized specifications.
