

Explanation for Silent STA Request

Due to a technical issue, the station went off the air on May 16, 2023. Efforts to determine the cause of the problem are ongoing. While efforts are ongoing, Civic Media, licensee of the station, notes that there is an outstanding CP (LMS[0000212869](#)) for modification of the station and efforts to implement that CP are being made. If repairs to the existing facility cannot be made, the station will remain silent until the CP is implemented.
