

### **Extension of STA Exhibit**

Educational Media Foundation (“EMF”) respectfully requests an extension of the current special temporary authority for FM translator station K204EO to remain silent (File No. 0000203292). EMF has determined that the best path forward for K204EO to ameliorate the displacement is to locate to a new tower. EMF is currently working on a tower lease and will file any necessary modification applications to reflect any needed changes in its authorization. A grant of this request is in the public interest as it permits EMF to continue to return its service to the residents of Yankton, South Dakota.
