

### **Reason for Special Temporary Authority**

The primary station for K294CA, Monterey, California (FAC: 147613) surrendered its FCC authorization on April 30, 2023, therefore the translator station is silent due to lack of primary station. The licensee is currently working to finalize arrangements with an alternative primary station to rebroadcast and will return the translator to on air operation once final arrangements for a new primary station are made. The licensee respectfully requests special temporary authority for K294CA to remain silent until it can recommence broadcasting with a new primary station.
