

**Explanatory Exhibit Regarding Amended Channel Sharing Agreement**

The University of North Carolina (the “University”), licensee of WUNC-TV (Facility ID No. 69080), is filing this Modification of License application after consultation with FCC Staff and for the sole purpose of providing the new Channel Sharing Agreement (“CSA”) between the University and Radiant Life Ministries, Inc., licensee of WRAY-TV (Facility ID No. 10133) and WLXI(TV) (Facility ID No. 54452). *See* LMS File No. 000215188; *see also* LMS File No. 0000214141 (WLXI(TV) Modification to License (Sharing) Application with exhibit explaining transition from prior CSA to new CSA).

On March 8, 2021, WUNC-TV previously was granted authority to—and shortly thereafter did—commence ATSC 3.0 broadcasting. *See* LMS File No. 0000138116. However, due to limitations with LMS, this Modification of License application is unable to either incorporate that prior application and grant or limit the content of the application form to solely provide an update of the existing CSA. Consequently, and out of an abundance of caution, the University provides the following information regarding several of the required inputs on the application form that are unable to be fully or correctly answered due to the foregoing LMS limitations:

- **For the Applicant station’s Current and “New” ATSC 3.0 host:** The host facility has at all times been, and will continue to be, WNGT-CD, Raleigh, N.C. (Facility ID No. 71089).
- **For the “Commencement of Operations Date”:** WUNC-TV commenced ATSC 3.0 guest service on its ATSC 3.0 host station on March 22, 2021. *See* LMS File No. 0000138116. The current Modification of License application will not allow the University to input this date; accordingly, the University respectfully explains that the date input on the accompanying Modification of License application should be ignored.
