

KWTB-DT
REDUCED POWER NOTIFICATION

On June 1, 2023, KWTB-DT experienced a UHF High Power Tunable Filter failure that is causing the station to operate with approximately 20% of authorized power. The antenna manufacturer has indicated that a replacement filter will be shipped by June 30, 2023. To the extent necessary, a request for Special Temporary Authority will be filed if it is anticipated that reduced power operations will be necessary for 30 days or more.
