Public File

Throughout the license term, KEZI timely completed and uploaded to its online public inspection file its EEO public file reports. However, for the 2017 and 2018 reporting periods, KEZI reported information required by the FCC's EEO rules based on a reporting period beginning September 1 and ending August 31. KEZI corrected this error with the 2019 reporting period so as to follow the reporting period applicable to stations licensed to communities in the state of Oregon (i.e., October 1 through September 30). (The 2019 report also contained vacancy and recruitment information (if any) from September 2018 so as not to omit any information.) KEZI's 2014-2016 EEO public file reports follow the October 1 through September 30 reporting period.

Political File

Station KEZI is committed to uploading political file material as soon as possible consistent with Commission guidance. In reviewing the political file material uploaded over the past two years, the station has determined that a limited number of orders were not routinely uploaded within one business day. Station management has implemented corrective measures to ensure that political material is now uploaded within one business day from a request for time.
