

Silent authority is requested for translator W252AY. A Construction Permit has been granted April, 2023 (file **0000213573**) for the move to a new tower site. Dismantling of the original tower site has been completed and the station is off-air. A new directional antenna (as required by the CP) has been acquired and the tower crew to install it is currently being scheduled, depending upon their availability.

Expected duration of the STA is through July, 2023.
