John Bagwell
1515 Broadway
New York, New York 10036

Dear Mr. John Bagwell:

This is in response to your email dated June 15, 2023, regarding the vessels SILVER LARK, O.N. 250541, the visual-signal KPYX and SEALAND ARCHIEVER (EX: AMERICAN ALABAMA), O.N. 665782, the visual-signal WPKD.

In accordance with your application, the Federal Communications Commission has been notified today of the cancellation of the visual-signal KPYX & WPKD formerly assigned to the subject vessels.

The task of issuing call signs resides with the Federal Communications Commission (FCC). The United States Coast Guard's role with the FCC is strictly in a research capacity, determining whether the vessel is in service, and the call sign is still active. If the vessel has been deleted from documentation, the U.S. Coast Guard does not object to having the call sign reassigned. If the vessel's Certificate of Documentation is valid, the U.S. Coast Guard states that fact and indicates that the call sign is still in use, and, therefore, unavailable for reassignment.

If you have any questions regarding this letter, please contact the undersigned, at (800) 799-8362.

Sincerely,

KIM E. DEMORY
Records and Research Manager
