

Assignee – Multiple Ownership Compliance

Post-transaction, the proposed assignee will be the licensee of a single non-commercial FM station in the Shreveport, Louisiana market. Pursuant to 47 CFR §73.3555(f), noncommercial stations are categorically exempt from the FCC's multiple ownership rules, and therefore with respect to the proposed assignee, the transaction is fully compliant with the FCC's rules.

One of the proposed assignee's board members is also a member of the proposed assignee for commercial radio station KSYR, Benton, La (Fac. Id. 9681). According to BIA Kelsey, KSYR is assigned to the rated Shreveport, Louisiana market.¹ Ownership of a single commercial radio station in any market is permissible under the FCC's multiple ownership rules, regardless of market size. *See* 47 CFR §73.3555(a). Accordingly, the attributable interest of this sole board member of the KFLO-FM proposed assignee is fully compliant with the FCC's multiple ownership rules.
