

### **Reason for Extension of STA**

K243BQ has been off the air since 9/20/2023. STA to Remain Silent, 0000202589, was granted 10/28/2022. The purpose of this application is to extend the STA to Remain Silent.

The translator was removed from service because the property on which the tower was located was sold and the tower was dismantled. Applicant has secured a location from which to resume broadcasting. Minor modification of licensed facility for K243BQ was filed 10/21/2023. As soon as the CP is granted, applicant will construct and license the facility. Applicant will file notification of resumed operations in the LMS will and notify Denise Williams via email.
