

## STA Exhibit

Educational Media Foundation (EMF) requests special temporary authority to operate FM translator K288GR at reduced power. As of 07/11/2023, K288GR Bayport, MN (Facility ID: 145809) is operating at reduced power as a result of tower work being performed at its primary station site. The tower work is to continue for several more weeks. As a result, it is uncertain exactly how long it will take until EMF can restore K288GR to full power operations, but EMF will proceed expeditiously once the tower work is completed and we are able to rebroadcast its primary station.

A grant of this request is in the public interest as it permits K288GR to continue to provide its unique programming to its listeners.

K288GR operating parameters:
